As requested by HPSCI, I am forwarding a machine run on NFAC production since 1 January 1978. I had the items listed by area or country rather than chronologically or by producing office. There may, therefore, be some duplication where a memorandum covers more than one geographic entity.

The following production is not included in the list:

--All serial production, such as the NID or weekly economic summaries.

--All Interagency production, such as National Estimates or Interagency Memoranda, regardless of how extensive the NFAC role may have been in these issuances.

--Memoranda done in response to a specific request from a single recipient. (These are often done in typescript and receive very limited dissemination.)
